

PLAN

VBCPS Plan for Continuous Improvement

Review and Analysis of Results

School: Seatack Elementary School DATE: 10/31/07

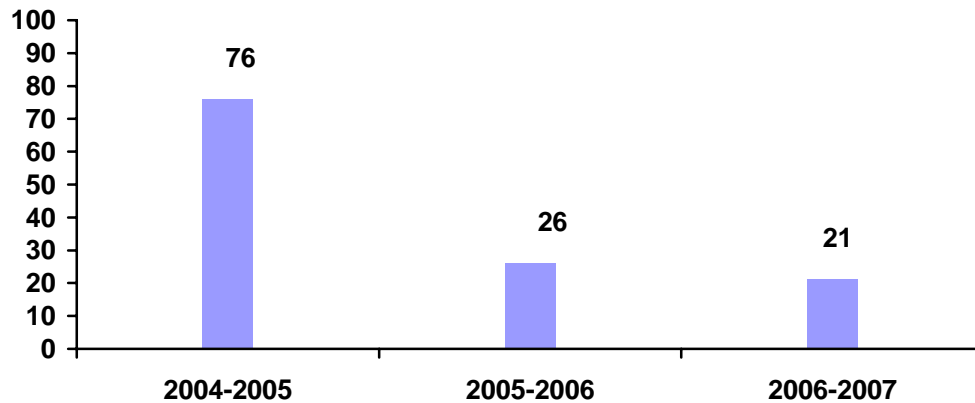

Review

(Objective data, qualitative indicators, trends and comparisons)

Analysis

(Identify gaps and list priorities)

Number of Unduplicated Discipline Referrals

Gaps:

- Analysis of the discipline data for the past three years shows a decrease in all referrals.
- The measurable objective from 2006-2007 was reached. Unduplicated referrals decreased from 26 to 21, an 8% decrease.

Priorities:

- Continue administrative support of school staff concerning discipline.
- Continue strong classroom management procedures to maintain/decrease the number of office referrals.
